

The background of the entire image is a dense, repeating pattern of thin, parallel teal lines. Overlaid on this is a large, stylized star or snowflake-like shape. This shape is composed of multiple concentric, jagged layers. Each layer is filled with a pattern of parallel red lines, and the entire shape is outlined in a solid teal color. The central area of the image, where the star's points do not overlap, contains the text.

Welcome,

The last six months I have carefully looked over 650 applications that we had the honor of receiving after our international call for entries. All the latest developments in design passed by on my desk. Whether it was the exploration of technologies and materials, improvement of the quality of life through social design projects, or academy research projects and design investigation. All of them had one thing in common; the outcome was ready to be shared with and shown to the world.

It fills me with joy that this seventh edition of Ventura Lambrate will make it possible!

When I started with Ventura Projects years ago I never dreamed of making seven editions in Milan, three in Kortrijk, but also one in Berlin and London. 2016 turns out to be another milestone in Ventura history, in May the first 'Dutch edition' of Ventura New York will take place during the NYCxdesign week.

My vision has not changed in all those years; a completely curated area with space for upcoming international design talents, creative labels and new generation academy works. On top of that Ventura Lambrate does not shy away from also showing the research and concept phases of the presented works. This is what sets us apart from other design events in Milan and over the world.

I want to thank all exhibitors who have the guts to show their work to this critical and international design audience and wish them whole heartedly the contacts and business they hope for.

And for you, dear visitor, I wish to you the same sense of wonder, of awe and inspiration as I felt when I saw these wonderful ideas, concepts and objects for the very first time.

Enjoy Ventura Lambrate 2016!

**HOW TO REACH VENTURA LAMBRATE**

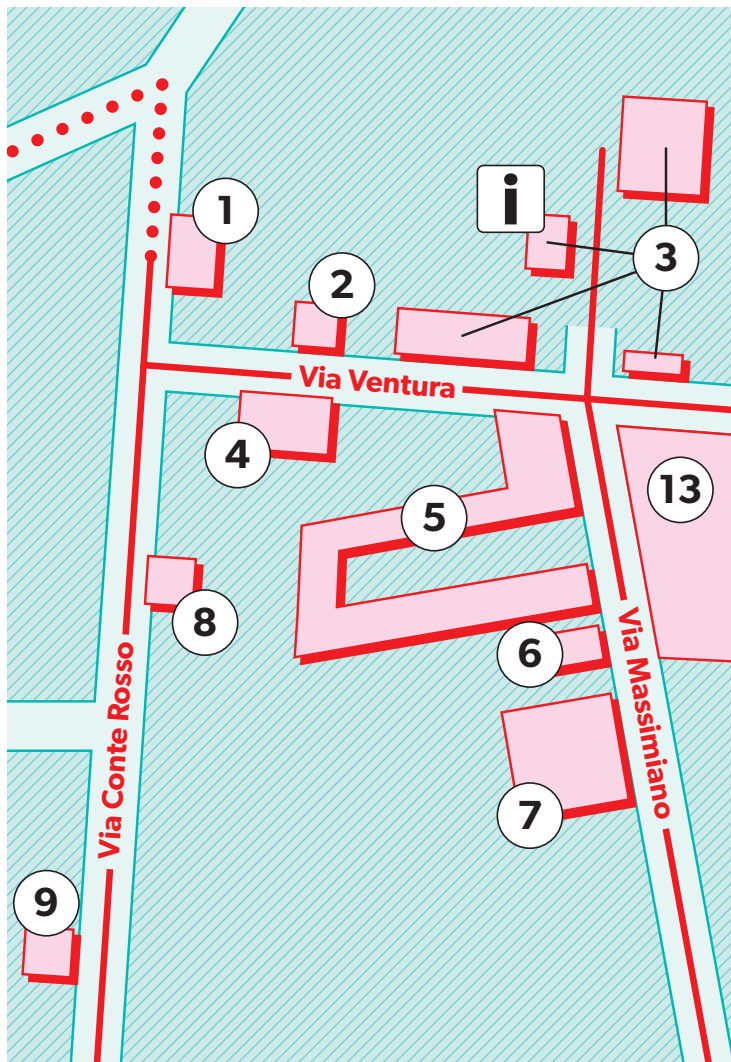

**METRO** Ventura Lambrate can be reached easily by metro: MM2 Green Line, exit at Lambrate FS. It takes about 20 minutes to go from Lambrate to the other key points of the Milan Design Week (Brera, Porta Venezia, Triennale, Zona Tortona and Svie).

**WALKING** Ventura Lambrate is within walking distance of the Lambrate metro station (MM2 Green Line). After exiting the metro, exit the station's rear and follow the signs. It's about a seven minute walk.

**VENTURA LAMBRATE** is founded and produced by Organisation in Design.
