Hello and benvenuto,

You are reading the words of a happy woman. Yes I have given myself an impossible task, but nothing is more satisfying than a 'job well done'.

It was the 2015 edition of Ventura Lambrate when a certain unrest crept up on me. I was looking back on yet another successful edition of our design event in Milan but there was also this deep felt desire to give myself a new challenge. I mulled over several ideas before I decided that it was time for an extension of the family. Ventura Lambrate needed a sister.

The hunt was on for a new and exciting location in Milan. It took many hours, a lot of driving, re-falling in love with the city, climbing walls and hurting heels but I found a stunning new addition to the Ventura family in the Central Station of Milan.

It is the perfect space for designers and labels that are in need of that blank canvas that they can mould into their own little universe. In that sense it is also complimentary to Ventura Lambrate. Whereas Ventura Lambrate presents the ideas, the concepts and the products of emerging talents, innovative brands and design academies from all around the world, Venture Centrale is a pop-up museum where you can revel in the work of some of the most important names in the design scene.

The matchmaking for which I once started Ventura Lambrate - wanting to provide designers with a platform that would give them the opportunity to build on a network in order to have a flourishing business - is also taking place in Ventura Centrale but on a very different level. Ventura Lambrate has an openness that I feel is linked to the conceptual identity of the work we put on show. Ventura Centrale has the established designers that give a certain glitz & glamour to the place and where you will find exclusive little events. Of course both locations are free for you to visit and only four short subway stops apart.

Enjoy,

Margriet Vollenberg  
Co-founder and art director, Ventura Projects

HOW TO REACH VENTURA CENTRALE

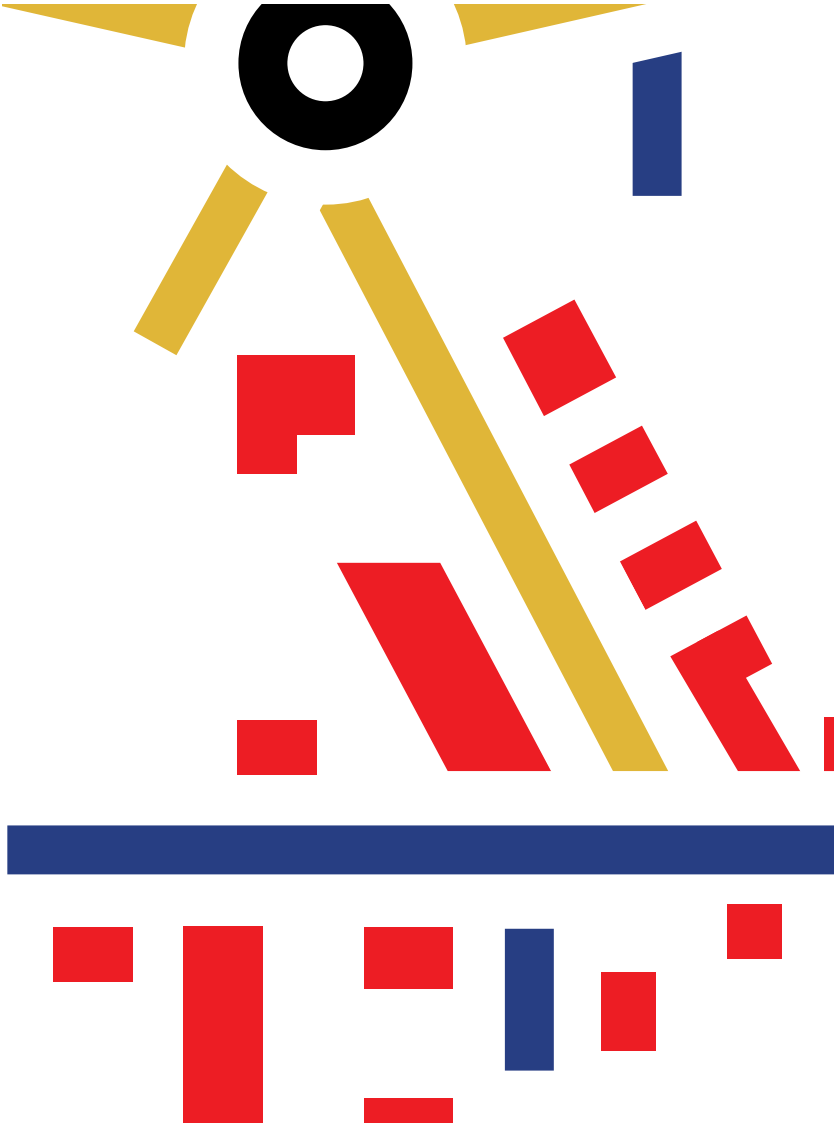

The warehouses of Ventura Centrale are on Via Ferrante Aporti 9-21.  
When facing the front of Central Station they are on the right side.

**Train** There are many trains arriving at Milano Centrale. After exiting the train follow the yellow indications for Piazza Luigi di Savoia and blue indications for Termina Bus Orio Al Serio and Linate Airports until you arrive outside of the station. Once outside you have to turn left and follow the stickers on the walking path which will bring you to the warehouses of Ventura Centrale. It's about a seven minute walk.

**Metro** Ventura Centrale can easily be reached by metro: MM2 Green Line and MM3 Yellow Line, exit at Centrale FS. Once you arrive in the hall of the metro station please pass the ticket office and ticket machines where you can take the escalator or the stairs up to the railway station. When you get upstairs go straight on until you get to the store, Celio, where you take a right. There you take another escalator up and from there go straight on towards the big clock. When you are standing underneath the clock follow the stickers on the walking path which will bring you to the warehouses of Ventura Centrale in Via Ferrante Aporti. It's about seven minute walk.

Ventura Centrale is only 4 metro stops away from Ventura Lambrate. From Centrale take the MM2 Green Line to Lambrate FS. See the above description to get from the station to the Ventura Centrale warehouses.

The background is a complex abstract composition of geometric shapes. It features several vertical blue bars of varying heights and widths. There are also several red rectangles and squares scattered throughout. A large, stylized yellow 'V' shape is prominent in the upper left quadrant. A thick black horizontal bar is located in the lower right. A large, black, partial circular shape is visible on the right side. The overall aesthetic is modern and graphic.
